Although every care has been taken in the preparation of this register, Herefordshire Council cannot be held responsible for any omissions or errors, or for the accuracy of any descriptions or dimensions. Prospective purchasers, tenants, etc. should consult the agents direct to confirm the details and availability of the properties listed, and their suitability for the intended purpose.

A

Introduction

The Herefordshire Council Commercial Property Register aims to provide a central source of information on available commercial property and land in the County. The register is divided into 5 categories:

- **Development Land**
- **Development Opportunities**
- **Industrial/Warehouse**
- **Office**
- **Retail**

Categorisation for a particular type of use does not necessarily infer that planning permission has been obtained or that the property conforms with all current legislation, including the Disability Discrimination Act. If in doubt it is advisable to check with the Council Planning Department, on 01432 261790 or 261967, that your intended use of the property is acceptable. Since units may be suitable for more than one purpose it may be worth checking all sections for possible premises. Units are arranged by minimum size, but since units may be split or linked they may not appear where you would expect, so check the maximum sizes across the whole section.

The Register is produced quarterly and is available free of charge. On-line information obtained via our web site is updated monthly, where it has changed. Property searches of the latest information on our database are available on request and can be produced in large print or Braille if required. This service is advertised in local newspapers and via links to our web site. Information on available sites and premises is gathered from the following sources:

- Industrial and commercial agents
- Herefordshire Councils' own sites and premises
- Local and National Press advertisements and web sites

The Register provides a summary of the agent details on each property including a contact point for additional information. *Please remember to tell the agent that you first heard about the property in the Herefordshire Council Property Register.*

In addition to property information the Economic Investment & Development Team is able to provide assistance to individuals and companies with enquiries on:

- Grants and funding available
- Introductions to other investment agencies
- Key statistics and facts on the local economy

Herefordshire welcomes enquiries. For further information or advice please contact:
