1.0 Introduction

- 1.1 To ensure that the requirements of the Habitats Directive and Regulations are met, it is necessary to consider the proposed Main Modifications through the HRA process to the Eaton Bishop NDP. The NDP has now been through an Independent Examination by Rosemary Kidd and within her report she has recommended a number of minor modifications to ensure the Plan meets the Basic conditions.
- 1.2 Herefordshire Council have accepted these modifications to the Plan, the NDP, therefore, has been updated to reflect the modifications suggested. In the main the changes were minor word alterations to ensure the Policies were in line with the Framework and also to add clarity for the decision makers. These modified policies have now been assessed as part of the HRA and the full results can be viewed in Appendix 1.
- 1.3 The purpose of this further HRA Addendum Report is to detail the findings of the screening of proposed changes to policies and consider if they significantly affect the conclusions of the earlier HRA Reports (July 2016 and October 2016).
- 1.4 The modifications are not considered to significantly affect the conclusions of the earlier HRA report, as they did not involve the introduction of new policies or change the overall aims and objectives of the existing planning policies.

2.0 Screening of proposed modifications to the NDP

- 2.1 Regulation 102 of the Habitats Regulations 2010 requires that a Screening Assessment be undertaken, in order to identify the 'likely significant effects' of an NDP. Accordingly, a screening matrix was prepared and this determined the extent to which any of the policies and site allocations in the Eaton Bishop NDP would be likely to have a significant effect on the River Wye SAC which runs through the neighbourhood area.
- 2.2 The findings of the screening matrix can be found in Appendices 1 and 2 of that report.
- 2.3 The screening matrix took the approach of screening each policy, objective and site allocation individually, which is consistent with current guidance. The results from the HRA reports for the Pre-submission version of the Herefordshire Local Plan (Core Strategy) and the proposed Main Modifications were also taken into consideration.
- 2.4 None of the Eaton Bishop NDP objectives and policies (July 2016 and Addendum in October 2016) were concluded to be likely to have a significant effect on the European site. This conclusion is based on assumptions and information contained within the Eaton Bishop NDP.
- 2.5 In many cases this is because the policies themselves would not result in development, i.e. they related instead to criteria for development. In several cases the policies also included measures to help support the natural environment including biodiversity and safeguard historic environment. These policies have the potential to mitigate some of the possible adverse effects arising from other policies.
- 2.6 With regard to site allocations, the possibility of there being likely significant effects was considered unlikely given that none of the sites are in close proximity of the European sites. However, it is considered that the inclusion of additional policy wording within the related housing policies of the NDP would, along with other policies, provide adequate safeguarding measures.
- 2.7 It was also concluded that the Eaton Bishop NDP will unlikely have any in-combination effects with any plans from neighbouring parishes.
- 2.8 Therefore it was concluded previously that the **Eaton Bishop NDP will not have a likely significant effect on the River Wye SAC.**

- 2.9 The proposed amendments to the final NDP following the examination are screened to consider if they are likely to significantly affect the findings of the previous HRA Report, prepared in October 2016. A summary of the main findings is provided below. The full findings can be found in Appendix 1 of this report.

3.0 Summary of main findings

- 3.1 The final NDP incorporates the modifications that examiner has recommended within the examiner's report. These changes are to ensure that the Plan meets the Basic Conditions. For full details on the modifications see Appendix 2 of this Addendum.
- 3.2 No new policies have been introduced into the Final NDP following the examination; however there have been some minor word changes and repeated or unnecessary criterion deleted from some of the policies. Policy EB3 Phasing protection as it was deemed not capable of implementation and not in line with Planning Policy Guidance of a policy being clear and unambiguous.
- 3.3 The revised NDP policies are therefore unlikely to result in significant effects on the European sites, a conclusion of which is based on assumptions and information contained within the Eaton Bishop NDP, the proposed Main Modifications to the Herefordshire Local Plan (Core Strategy) and the latest version of the HRA for the Local Plan (Core Strategy).

4.0 Conclusion

- 4.1 With reference to section 3 above, the change of wording added to the Policies EB1, EB4, EB5, EB7, EB8, EB10 and EB11 (now EB1, EB3, EB4, EB6, EB7, EB9 and EB10) have been rescreened this have improved certainty in many places providing a more positive effect on the HRA SAC. The deletion of criterion within Policies and deletion of policy EB3 is not considered to affect the findings of the previous HRA report. Policies EB6 and EB14 (Now EB5 and EB13) had minor wording amendments but changes were not significant enough to require rescreening.
- 4.2 Therefore the earlier conclusion that the **Eaton Bishop NDP will not have a likely significant effect on the River Wye SAC** remains valid.

5.0 Next steps

- 5.1 This Addendum Report will be published alongside the final Eaton Bishop NDP and the earlier HRA report and Addendum.
