5. Our future vision 21
1. Introduction

Welcome to my first Annual Director of Public Health Report. Last year’s report was focused on adults’ health and wellbeing and gave an account of the factors that could affect health and wellbeing and what an individual could do to prevent or minimise the risk of ill health. This year’s report is an opportunity for me to share some examples of the good work we are already doing and set out my strategic approach to improve the health and wellbeing of the people of Herefordshire.

Herefordshire has been witnessing a gradual rise in the healthy life expectancy, but it is significantly lower than life expectancy at birth. There is also a gap in the healthy life expectancy and life expectancy at birth between those living in the most and least deprived neighbourhoods. Therefore, the key public health challenge is not only to increase the healthy life expectancy and bring it closer to life expectancy at birth, but also to reduce the inequality gap between those living in the most and least deprived neighbourhoods. In order to reduce the inequality gap, I will focus on influencing the wider determinants of health and adopt assets and strengths based approaches. We all know that Herefordshire is a resourceful county and is blessed with numerous valuable community assets.

Herefordshire Council has been receiving a Department of Health and Social Care Ring Fenced Grant since 2013, which has largely been used to commission public health services. Additionally, the council also commissions a number of other services, such as children’s centres, leisure facilities and Fastershire’s digital inclusion programme, which have an impact on the health and wellbeing of the population. I will continue strengthening the joined up working across the council, facilitating and enabling individuals and teams to embed public health interventions in their core business, to help deliver and achieve public health outcomes. This is part of my approach to achieve our ambition of making public health everyone’s business.

We have been working in a difficult financial climate and increased demand for health and social care is compounding these financial pressures on both Herefordshire Council and NHS commissioners. Therefore, developing more effective prevention to reduce preventable multiple long term conditions and demand management are key challenges across the health and social care system. In this context, I’m quite heartened by the One Herefordshire vision and believe that public health will play a pivotal role in translating this vision into reality with tangible outcomes for the people of Herefordshire.

Finally, I look forward to working with colleagues across the county, who have already been doing a great amount of work to make a difference to the health and wellbeing of our county’s residents.
We welcome the Annual Director of Public Health Report 2017, which is the first report from our new Director of Public Health, who joined Herefordshire Council in March 2018. At the very outset, Karen has expressed her vision to “make Herefordshire Council a public health council”. We appreciate this is a very ambitious and challenging task, but we believe in her commitment and enthusiasm. This report sets out her joined up partnership approach, which will turn this vision into a reality.

This report highlights a number of successes we have achieved with our partners over the last few years to improve the health and wellbeing of our residents. We’re delighted that people in Herefordshire are living longer, but we need to ensure the additional years of life gained through increased life expectancy, are of a good quality which minimise disabilities and maximise independence.

The report also covers a number of population health challenges facing Herefordshire, but we’re pleased to see a strategic approach is being developed to tackle them, and we’re reassured that Karen and her public health team will drive the prevention agenda across the county. By endorsing her approach, we aim to maximise influencing the wider determinants of health to create a supportive environment where adopting healthy lifestyles is easy and practicable and sustainable in the long term.

We also acknowledge the mounting pressure on the health and social care system within the county and the report confirms the Director of Public Health’s commitment to support this vision. We also need to continue striving to build resilient communities, where a culture of mutual support flourishes to underpin the One Herefordshire vision.

Finally, we look forward to seeing the development and delivery of the prevention agenda across the county.
2. Herefordshire health and wellbeing profile

Overall life expectancy and mortality

People born in Herefordshire are expected to live for longer, and in good health, than their peers nationally.

Life expectancy: For males born in Herefordshire in 2014-16 the average life expectancy is 80.1 years, while for females it is 83.6 years. Both figures have declined slightly since 2012-14, but for males is similar to England and higher than the West Midlands region and for females, higher than for both.

Healthy Life Expectancy: In 2014-16 the healthy life expectancy in Herefordshire was 67.4 years for males and 66.5 years for females, both higher than the national figures.

Both mortality and premature (below 75) mortality continue to fall, and remain lower than national levels, and compared to similar areas.

The all cause directly age standardised mortality rate for Herefordshire in 2016 was 937 per 100,000, lower than the England rate (960) and representing an overall downward trend from 1,054 in 2007.

Between 1995 and 2014 the directly age-standardised premature mortality rate in Herefordshire has shown a steady downward trend, falling from 540 to 280 per 100,000 of the population (a fall of 38 per cent - similar to the 39 per cent seen nationally and amongst comparators).
Premature death (under 75 years)

All deaths in 2016/17: 2,097
Premature (<75 years) deaths in 2016/17: 608

Herefordshire
3.5 in 12 people in Herefordshire die prematurely

England
4 in 12 people in England die prematurely

Three leading causes of premature death in Herefordshire
- Cancer (44%)
- Cardiovascular Disease (22%)
- Respiratory Disease (10%)
Unemployment rate of 3.1% remains significantly lower than nationally (4.4%) and regionally (5.4%) and is at its lowest since 2004/05.

Homelessness rates are lower in Herefordshire than England:

What concerns us most

**Earnings**
Female earnings are 10% less than males
- 19% lower than England
- 13% lower than West Midlands

**Fuel poverty**
- Herefordshire 17% (13,300 households)
- England 11%
- West Midlands 14%

**Alcohol harm - children**
Hospital admission rates for alcohol specific conditions amongst under 18s:
- Herefordshire 41
- England 34
- West Midlands 29

**Dementia**
The percentage of over 65 year olds estimated to have dementia who have been formally diagnosed is below the national target (66.7%)
- Herefordshire 59% diagnosed
- England 68% diagnosed
- West Midlands 66%

**Mental health - children**
Under 18 mental health related hospital admissions:
- Herefordshire 167
- England 82
- West Midlands 84

**Dental health**
Five year olds with at least one decayed, missing or filled tooth:
- Herefordshire 31%
- England 23%
- West Midlands 26%

Note: Comparisons between areas must be made with caution for this indicator. Local protocols are known to result in children and young people being counted as a hospital admission where similar hospital presentation and care in other areas would not be counted as such. It is likely that these figures reflect different protocols rather than differences in underlying health.
What concerns us most

**Obesity**

- Overweight or obese adults:
  - Herefordshire: 63%
  - England: 61%
  - West Midlands: 64%

- Overweight or obese children (10-11 year olds):
  - Herefordshire: 35%
  - England: 34%
  - West Midlands: 37%

**High blood pressure**

- Percentage of patients with hypertension recorded by general practice:
  - Herefordshire: 16%
  - England: 14%
  - West Midlands: 15%

**Coronary heart disease**

- Percentage of patients with CHD recorded by general practice:
  - Herefordshire: 3.5%
  - England: 3.2%
  - West Midlands: 3.2%

**Stroke**

- Percentage of patients with Stroke or Transient Ischaemic Attack (TIA) recorded by general practice:
  - Herefordshire: 2.3%
  - England: 1.7%
  - West Midlands: 1.8%
Health inequalities

**Smoking**
Adults in routine and manual occupations in Herefordshire are much more likely to smoke than the population overall

- **Routine and manual workers**: 25%
- **All adults**: 14%

**School achievement**
Disadvantaged children are less likely to reach the expected standard in reading, writing and maths at Key Stage 2

- **Herefordshire**: 47% disadvantaged pupils
- **England**: 68% all pupils

**Premature deaths**
People living in the most deprived areas of Herefordshire are:
- 29% more likely to die prematurely of coronary heart disease;
- 71% more likely to die prematurely of stroke;
- 22% more likely to die prematurely of cancer;
- 19% more likely to die prematurely by suicide; than those in the least deprived areas.

**Life expectancy**
Females born in the most deprived areas of Herefordshire can expect to live 2.6 years less than those living in the least deprived areas; males 3.9 years less.
Public health grant 2016/17
Herefordshire’s allocated budget: £9.706million

- Children’s health commissioning (£2.249m) 23%
- Healthy lifestyle trainer service (£169k) 2%
- Cross council health and wellbeing programmes 17%
- Public health’s intelligence and support team (£717k) 7%
- Stop smoking service (£194k) 2%
- NHS Health Check commissioning (£379k) 4%
- Sexual health commissioning (£1.197m) 12%
- Drugs and alcohol commissioning (£1.774m) 18%
- Health improvement programmes (£1.427m) 15%
Sexual health commissioning (£1.2m)

We commission an Integrated Sexual Health Service, which provides the following services:

- Open access to diagnosis and treatment of sexually transmitted infections (STIs) services through booked appointments and drop in clinics in Hereford city centre
- Open access to free contraception services at the Sexual Health Clinic in Hereford and at GP practices
- The prevention and testing of people at higher risk of contracting HIV
- Provision of online testing for STIs and HIV
- Provision of free emergency hormonal contraception at community pharmacies
- A free condom distribution service to under 25’s

Drugs and alcohol commissioning (£1.8m)

We commission an Integrated Substance Misuse Service, which offers:

- Open access structured psychosocial treatment to support recovery from drug and alcohol misuse in Hereford, Ledbury, Leominster and Ross-on-Wye
- Substitute prescribing clinics in Hereford, Ledbury, Leominster and Ross-on-Wye and in partnership with selected GP practices
- Access routes to peer support and recovery networks
- Group psychosocial interventions
- Skill based activities
- Young person’s drug and alcohol service
- In-reach service at Hereford County Hospital’s A&E Department
- Criminal justice service delivery in partnership with police and probation
- Needle exchange
- Blood borne virus testing
Children’s health commissioning (£2.2m)

We commission public health nursing service, bringing together health visiting and school nursing. This offers universal and targeted services for families with children and young people up to 19 years. The National Child Measurement Programme weighs and measures reception class and year 6 children across the county, while the Healthy Start Vitamins Scheme provides free vitamins to eligible mothers and children.

Health improvement programmes (£1.4m)

We commission / deliver a number of health improvement programmes, including:

- A falls prevention / postural stability pilot programme, which aims to reduce falls across the county
- Active HERE which targets inactive residents and supports them to become more active
- A number of local and national awareness campaigns, including mental wellbeing, healthy eating and physical activity
- Making Every Contact Count (MECC) through the implementation and development of local training and resources
- The ASSIST Programme, which is a smoking prevention programme aiming to reduce adolescent smoking prevalence by working with influential year 8 students to become peer supporters

NHS Health Check commissioning (£0.4m)

This service offers a cardiovascular disease (CVD) risk assessment for healthy individuals aged 40 to 74 every five years. Any individuals identified as being at a higher CVD risk, are signposted to appropriate services for prevention or treatment interventions.

Stop smoking service (£0.2m)

The public health team offers support and advice to those who want to quit smoking as part of a universal offer. The stop smoking service offers behavioural support and pharmacotherapy to targeted groups, such as pregnant women and high risk individuals with long term medical conditions.

Healthy lifestyle trainer service (£0.2m)

This service offers free and confidential practical advice and support to people aged 16 years and over who want to address their lifestyle behaviours such as quitting smoking, eating, drinking, reducing risk of diabetes.
4. Case studies

How has the public health team helped to support people in Herefordshire?

Here’s a few interesting short films to demonstrate the positive impact of our work....

**Active HERE**
Active HERE is a joint Sport England and Herefordshire public health funded project designed to support inactive people to become more physically active.

Did you know?
7 in 10 inactive people who engaged with Active HERE became more active.

Take a look at the Active Here infographic on page 16.

---

**Cycling for children**
Free holiday cycling activities are offered for children including Learn to Ride, Cycle Skills, Fix-It and Scooter Skills Sessions. Bikeability cycle training is also provided for all Year 5 and Year 6 primary pupils.

Did you know?
Between April 2017 and end of March 2018
251 children attended the Learn to Ride course
318 children attended the Cycle Skills/Bike Club courses
1092 children achieved Bikeability level 2

Age
- Aged 18-34 (11%)
- Aged 35-44 (7%)
- Aged 45-59 (27%)
- Aged 60 and over (44%)
- Not Declared (11%)

Gender
- Male (21%)
- Female (79%)

What mattered to the person
- Socialising with others
- Fitting in
- Feeling confident
- Motivated due to support
- Independent of activity providers
- Bridges the gap between contemplating activity and taking part

Ethnic Background
- White British (89%)
- Other Ethnic Background (4%)
- Not Declared (7%)

79 providers of physical activity sessions
Over 250 activities available
How participants heard about Active HERE
- Signposted from health provider (33%)
- Promotional Event (25%)
- Word of mouth (18%)
- Poster or leaflet (11%)
- Signposted from 3rd party (9%)
- Local media (3%)

Significant barriers to participating in physical activity prior to joining Active HERE:
- Difficulty finding local sessions
- Seasonal activities
- Chronic illness and fatigue
- Worries about safety of activity for health condition
- Concerns about not fitting in to a group

Number of days per week taking part in sport
- Pre-Intervention:
  - 0 days (99%)
  - 1 day (1%)
- At 12 weeks:
  - 0 days (29%)
  - 1 day (25%)
  - 2-3 days (23%)
  - 4-5 days (23%)

30+ minutes spent exercising
- Pre-Intervention:
  - Moderate Intensity: 3%
  - Light Intensity: 26%
- At 12 weeks:
  - Moderate Intensity: 28%
  - Light Intensity: 60%

1+ Days of Exercise Per Week
- Pre-Intervention:
  - Moderate Intensity: 4%
  - Light Intensity: 54%
- At 12 weeks:
  - Moderate Intensity: 35%
  - Light Intensity: 91%

Average Self-Efficacy scores
- Long-Term Health Conditions
  - None (40%)
  - One (31%)
  - Two (17%)
  - Three (7%)
  - Four or more (5%)
- Utility of a person-centred intervention
  - Provision of tailored information, suitable to an individual's circumstances
  - Regular contact with an interested person

Pre-Intervention (29.00/40)
- Average Self-Efficacy: 72.5%

At 12 weeks (33.22/40)
- Average Self-Efficacy: 83.1%
DECIPHer-ASSIST Programme

ASSIST is a peer support smoking prevention programme which trains influential Year 8 students to work as peer supporters. Peer supporters are trained and supported to have informal conversations about the risk of smoking and the benefits of being smoke free.

Did you know*?

- 8 Herefordshire high schools have been part of the programme
- 14 programmes have been delivered
- 335 year 8 students have trained to become a peer supporter
- 1,473 peer conversations have taken place (so far)

* Between 2015 and 2018

Postural stability pilot

This pilot programme helps older people increase their strength and balance by doing exercises in groups.

Did you know*?

- Over 900 fall related hospital admissions were recorded for residents aged 65 and over
- Two thirds (approximately) were female
- Deprived areas in Herefordshire have the highest rate of fall related hospital admissions

* In 2015/16

Watch our film...

Cath Warren, Bright futures 4 Youth

Watch our film...

Emma Gardner, Herefordshire and Worcestershire Sports Partnership and Jackie McMillan from Halo Leisure Services
Healthy lifestyle trainer service
This service is free and confidential and offers practical advice and support to people aged 16 years and over who want to change their lifestyle.

Did you know?
572 health assessments have been carried out in the last 12 months
302 personal health plans have been completed and of these, 50% achieved the outcomes in their plan and 30% part achieved them.
People who took part found that they:
• lost weight
• were more active
• felt better and healthier
• ate more fruit and vegetables and less fried and fatty food
• drank less alcohol

Teen health podcasts
Health Uncovered with Cel Spellman
Herefordshire’s public health team took part in the development of a health podcast trial aimed at getting more young people in tune with their health and wellbeing. The podcasts were by young people for young people.

Did you know?
10 teen health podcasts were created
9,000 downloads (so far) and counting
859 downloads for Herefordshire’s mental health podcast, which is the third most popular download
5. Our future vision

Over the coming year I am recommending that One Herefordshire and our Health and Wellbeing Board lead and galvanise efforts to take the following priorities forward.

Over the next few years we will:

1. Strengthen our approach to embedding health in all policies, strategies and commissioned services. A key priority will be to influence the Hereford Area Plan and significant Neighbourhood Plans to ensure that we take every opportunity to create environments that support health and wellbeing.

2. Work with Herefordshire’s Health and Wellbeing Board and other partners to develop a comprehensive oral health plan to tackle issues of poor oral health in children. A key priority will be to completing an oral health needs assessment and identifying the range of options that would best suit Herefordshire. This would include looking at fluoridating the mains water supply.

3. Work with Herefordshire’s Health and Wellbeing Board and other partners to develop and implement a healthy weight plan which focuses on reducing obesity in children. A key priority will be to use current data to target our work with communities, schools and parents.

4. Work with partners to develop a co-ordinated approach which focuses on what people can do to take care of themselves and build individual and community resilience. The key priorities will be aligning the developing approaches already in place to ensure people are connected to local assets and frontline staff are equipped with the skills and confidence to work with communities and Make Every Contact Count.

5. Work with our partners to develop an ageing well plan, which responds to the findings in the ageing well needs assessment and the deep dive analysis of the problems of cardiovascular disease and hypertension. A key priority will be to keep people active and connected throughout their life to reduce the risk of multiple long term conditions developing, which can reduce healthy life expectancy.

6. Develop the Healthy Living Network to enable community and voluntary organisations, businesses, partners and residents to actively champion health and wellbeing improvements in their area.

7. Work with schools and early years settings to better understand the underlying issues impacting on children’s mental health and self-esteem and embed evidenced based interventions to promote resilience and good relationships. A key priority will be to use the two and a half year integrated check on children, to identify any early issues in priority groups.

8. Develop a sustainable health and social care service in Herefordshire by maximising the opportunities to reduce demand on services in the first instance.

Karen Wright, Director of Public Health
