

Local Nature Recovery Strategy Steering Group
28th November 2023 12.30 – 2.30 pm

Agenda

1. Minutes of the last meeting
2. Any further comments on the amended organisational structure
3. How do we want our LNRS to look?
 - Worth looking briefly at the pilots (links in attached document) to get an idea of the possibilities.

Questions for us to consider:

- *Who is our audience?*
 - *How many documents do we want? Options might include an integrated strategy or separated into several parts some of which might be 'live' (actions tables etc) and some less so (the description of the strategy area).*
 - *Do we want a largely written strategy or a more visual approach (see Cornwall as an example).*
 - *Does a traditional document(s) approach work for us?*
4. What is our vision for our LNRS?
 - Worth looking briefly at the visions for the pilots (Rhiannon has drawn those out for us in the attached document) to get an idea of the visions set out during the pilot work
 - Also attached is the 'Ambitions' from the current Herefordshire County Plan – this is outside of the biodiversity realm but a potentially useful alternative approach

Questions for us to consider:

- *Do we want a single vision statement? Two or three sentences setting out what the Herefordshire LNRS sees itself achieving or aiming for?*
 - *How does our vision relate to our 'Statement of Biodiversity Priorities' which is a major part of the LNRS?*
5. Date for the next meeting – January 2024
