

Five Year Land Supply

Herefordshire Local Plan

September 2014

Five year housing land supply (2015-2020)**Position statement in support of the Core Strategy Submission document****1. Introduction**

1.1 The National Planning Policy Framework (NPPF) published in March 2012 states that local planning authorities should identify and update annually a supply of specific deliverable sites sufficient to provide five years supply of housing against their housing requirements including an additional buffer to ensure choice and competition in the market for land. This Statement sets out an assessment of the housing land supply position in Herefordshire taking into account the requirements of the NPPF to provide an estimate of the housing land position at the point of adoption of the Herefordshire Local Plan - Core Strategy as supporting information for the Submission of the Core Strategy. Although the Adoption date is not known, for ease of providing a basis for the calculations a nominal date of 1 April 2015 has been used.

2. Planning Policy**National Planning Policy Framework**

2.1 Paragraph 49 of the NPPF states "*relevant policies for the supply of housing should not be considered up-to-date if the local planning authority cannot demonstrate a five-year supply of deliverable housing sites*". Where the existence of a five year land supply cannot be demonstrated, there is a presumption in favour of granting planning permission for new housing unless the development can be shown to cause demonstrable harm to other factors that outweigh the need for new housing. Paragraph 14 of the NPPF states that there "*is a presumption in favour of sustainable development and for decision taking this means... where the development plan is absent, silent or relevant policies are out of date, granting planning permission unless any adverse impacts of doing so would significantly and demonstrably outweigh the benefits, when assessed against the policies in this Framework taken as a whole... or specific policies in this Framework indicate development should be restricted.*"

2.2 The NPPF is therefore emphasising the importance of the presumption in favour of sustainable development. In reaching a decision upon new housing the housing land supply position will need to be balanced against other factors in the development plan and/or NPPF which could result in the refusal of planning permission. The footnote to paragraph 14 of the NPPF is helpful in identifying those areas that the NPPF has in mind where development should be restricted. By way of example it lists:

- sites protected under the Birds and Habitats Directives and/or designated as Sites of Special Scientific Interest
- land designated as Local Green Space
- land designated as an Area of Outstanding Natural Beauty
- land affected by designated heritage assets
- land at risk of flooding

2.3 NPPF, paragraph 47 and footnote 11, states that sites identified within the 5 year supply must be *deliverable*. To be considered deliverable, sites should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years and, in particular, that development of the site is viable. Sites with planning permission should be considered deliverable until permission expires, unless there is clear evidence that schemes will not be implemented within five years. The 5 year supply must include a buffer of 5% and increasing this to a 20% buffer in the case of persistent under delivery of housing.

3. Planning Policy Guidance

3.1 The government launched its National Planning Practice Guidance (NPPG) on 6 March 2014 to supplement the NPPF. This guidance streamlines the previous multitude of national planning guidance into one document on a variety of planning matters. There is specific guidance on housing land supply. It clarifies footnote 11 of the NPPF, confirming that 'planning permission is not a prerequisite for a site being deliverable in terms of the five year supply'. However, robust, up-to-date evidence to support deliverability must be provided by the local planning authority, (NPPG, Paragraph 31). The NPPG states that 'local planning authorities should aim to deal with any undersupply [of housing] within the first five years of the plan period where possible (Paragraph 35). The Guidance outlines that estimating future need is not an exact science and that there is no one methodological approach or dataset which will provide a definitive assessment of need. However, the starting point for establishing the need for housing should be the latest household projections published by the Department for Communities and Local Government (CLG). This will be addressed later in the statement.

4. Calculating the Housing Land position

4.1 In preparing the Local Plan Core Strategy –Herefordshire Council have developed a clear understanding of housing requirements. The NPPF and the NPPG set out how the Objectively Assessed Need (OAN) for housing is expected to be identified and other factors which are relevant in translating this into policy targets for housing provision in local plans. The NPPF requires local authorities to meet objectively assessed needs" (NPPF, paragraph 14).

4.2 To provide the OAN for housing to support the Core Strategy, the Council commissioned an update to the **Local Housing Requirement Study (August 2014)** this supplements the Housing Market Area report produced in 2013. The Study takes account of the latest demographic evidence, Government policy and Guidance to define the Objectively Assessed Need (OAN) for housing in Herefordshire. In doing so it follows the methodology and approach set out in the Planning Practice Guidance. At the time of preparation of this statement, the latest projections are the 2011-based 'Interim' Household Projections¹. The NPPG also outlines that the latest population projections should be considered. These are the 2012 Sub-National Population Projections published by ONS in May 2014. These projections are important as they provide a consistent approach where key inputs (such as levels of internal migration) sum at a national level. The analysis takes account of the latest demographic data and considers up-to-date economic forecasts and economic growth potential within Herefordshire, and the implications of this on future housing provision. The study identifies **an Objectively Assessed Need between 15,400 and 16,200 homes in Herefordshire over the 2011-31 plan period.**

¹ CLG (April 2013) 2011-based Interim Household Projections

- 4.3 The Herefordshire Core Strategy covers the period 2011-31 and provides for a minimum **16,500** homes between 2011-31. This target exceeds the objectively assessed need identified for between 15,400-16,200 homes over this period by 2% - 7% (300-1,100 homes).
- 4.4 This report therefore provides an assessment of the housing land supply against the Core Strategy targets. Policies SS2 and SS3 of the Core Strategy set out the Council's strategy to secure the delivery of a minimum of 16,500 homes in Herefordshire between 2011 and 2031. In respect of a housing target for Herefordshire the expectation is that the highest rate of housing completions will be towards the latter end of the plan period (see Figure 1 below).

Figure 1 - Emerging Core Strategy indicative housing trajectory by settlement

	2011-16	2016-21	2021-26	2026-31	Total
Hereford	1000	1500	2000	2000	6500
Leominster	300	500	700	800	2300
Ross-on-Wye	250	275	175	200	900
Ledbury	180	350	210	60	800
Bromyard	120	125	125	130	500
Kington	30	40	60	70	200
Rural Areas	1120	1460	1230	1490	5300
Herefordshire	3000	4250	4500	4750	16500

- 4.5 The Core Strategy indicative trajectory suggests that in the early years of the plan anticipated delivery rates will be lower but as the housing market improves and key infrastructure is provided, delivery rates will increase. This is in accordance with the requirements of Paragraph 47 of the NPPF 'for market and affordable housing, illustrate the expected rate of housing delivery through a housing trajectory for the plan period'. Therefore, the anticipated Core Strategy trajectory from 2011–2031 is set out in Figure 2:

Figure 2 - Overall emerging Core Strategy housing trajectory

	2011-16	2016-21	2021- 26	2026-31	Average per annum
Emerging Core Strategy	600	850	900	950	825
Totals	3000	4250	4500	4750	16500

5. Methodology

- 5.1 In assessing the components of the 5-year housing supply position in Herefordshire the contents of the NPPF, NPPG and recent planning appeal decisions have been considered, these have acknowledged that Herefordshire should be considered as a 20% authority.

In assessing the 5-year supply position the following elements have been considered:

1. Sites with *planning permissions* include sites with full planning permission, sites with outline permission and sites currently under construction as at 1 April 2014.
2. Sites with permission granted *from 1 April 2014 to date* (sites with planning permission and sites where Herefordshire Council have resolved to grant planning permission).
3. Sites with planning permissions for *care home* accommodation and residential institutions.
4. Sites specifically allocated (not implemented) in the existing *Unitary Development Plan* (UDP).
5. An allowance for non-implementation from these sources. This recognises that a small proportion of sites with permission are not implemented. It is standard practice to factor a percentage *discount* into the calculation.
6. Core Strategy *strategic urban extensions*.
7. A projection for a *windfall* site allowance². The Council has made no allowance for windfalls in the first three years in order to avoid double counting with existing commitments so there would be a windfall calculation for years 4 & 5.
8. Sites brought forward through *Neighbourhood Development Plans*.

Other factors must be also considered against the calculation of five year supply and these relate to:

9. Past housing *completions* at the time of calculation 1 April 2014.
10. The *shortfall* against plan targets during the same period. Comparisons will be made against the emerging Core Strategy requirements.
11. An additional *20% buffer* for under delivery required by the NPPF.

- 5.2 The following section explains how each of these factors has been taken into account:

1. Sites with planning permission

- 5.3 Sites with full permission which are considered to be deliverable can contribute to housing supply. Footnote 11 of the NPPF confirms that sites with planning permission should be considered deliverable until the expiry of permission, unless clear evidence indicates otherwise.
- 5.4 Sites with outline permission which are considered to be deliverable can still contribute to housing supply. The standard lead in times allows an additional period for such sites to obtain full planning permission and discharge conditions as required.

² **Windfalls:** Sites which have not been specifically identified as available in the Local Plan process. They normally comprise previously-developed sites that have unexpectedly become available. Windfalls should not include residential gardens (NPPF).

- 5.5 Sites that are under construction are considered to be deliverable and such sites continue to deliver completions.
- 5.6 In some cases, particularly in the case of redevelopment schemes, there may be a net loss of houses. These have been fully taken in to account in the overall calculations of supply which produces a net figure.

Figure 3 - Commitments

Commitments	2013/2014	Deduct 10% (see discount rate below)
Not started	2270	2257
Under construction	606	
Total (Gross)	2876	
Total (net)	2508	

Appendix 1 lists all sites with planning permission at 1 April 2014.

2. Sites with planning permission granted from 1 April 2014 and sites where there is a Resolution to Grant planning permission

- 5.7 Sites granted permission since 1 April and sites with resolutions to grant planning permission have also been included as they provide an available opportunity that adds to the future housing supply. It is recognised that not all permissions will materialise. Therefore a discount of 10% (see discount rate below) is applied as the sites have not been the subject of a detailed case by case review. See Appendix 2 for a list of sites granted permission since 1 April.

Commitments since 1st April 2014	10% Discount applied
819	737

3. Sites with planning permissions for care home accommodation and residential institutions.

- 5.8 NPPG Para 37³ provides advice regarding how local planning authorities should deal with housing for older people. It indicates that local planning authorities should count housing provided for older people, including residential institutions in Use Class C2, against their housing requirement. Therefore care home accommodation for older people has been accounted for and has been included within the housing land assessment. See Appendix 3 for list of sites.

Commitments for older persons accommodation September 2014	10% Discount applied
367	330

³ Housing and economic availability assessment (NPPG)

4. Allocated sites in the Herefordshire Unitary Development Plan (HUDP)

5.9 There are some remaining sites identified in the HUDP that do not yet have the benefit of planning permission (as at 1 April 2014). Where there is clear evidence that such sites will be brought forward then they will be included in the 5 year supply. However, on this occasion no such sites can reliably be seen to be coming forward.

5. Discount rate

5.10 Not all planning permissions are completed within a 5 year period. Some applications lapse whilst others are superseded with new permissions. Therefore it is appropriate to include a discount rate within the 5 year calculation. A discount rate of 10% for lapsed and superseded sites has been applied. It is a notional but recognised discount.

6. Strategic urban extensions

5.11 The Core Strategy Strategic sites will make a significant contribute to the overall housing land supply over the plan period. On adoption of the Plan they will deliver housing during the first five years and their contribution to the supply of housing in the first five years following adoption has been assessed. Most of the strategic sites are being progressed through a pre-application process. The developers/agents of the sites have helped to provide details of likely completion rates for the first five years (see below).

Figure 4 - Strategic Urban Extension build out rate and total capacity

Strategic Location	Estimated Core Strategy capacity	2015/2016	2016/2017	2017/2018	2018/2019	2019/2020	Sub total

⁴ Care home accommodation

7. Windfall assessment

- 5.12 Windfall sites are those that have not been specifically identified as available in the Local Plan process. They normally comprise previously-developed sites that have unexpectedly become available. Herefordshire is a predominantly rural county and experiences a number of windfalls that also come forward on greenfield land. The NPPF states that “*Local Planning Authorities may make an allowance for windfall sites in the five-year supply if they have compelling evidence that such sites have consistently become available in the local area and will continue to provide a reliable source of supply. Any allowance should be realistic having regard to the Strategic Housing Land Availability Assessment (SHLAA), historic windfall delivery rates and expected future trends, and should not include residential gardens*” (NPPF, Paragraph 48).
- 5.13 The SHLAA is an assessment of the likely total numbers of new houses that could be achieved on sites with potential to deliver 5 or more dwellings. Historically, larger windfall sites have not formed a major part of the housing supply. Over the period 2007/2012, less than 3% of permissions each year were for sites larger than 10 houses and 0.1% of the total number of permissions over this 5 year period was on sites of 100 or more units. Therefore it was decided to focus this assessment on the smaller windfall sites as they have a stronger pattern of occurrence. The historic performance of windfall sites accommodating four or less dwellings was assessed as these sites would not be identified through SHLAA. Historic windfall completions are detailed in the table below.

Figure 5 - Historic windfall completion rates

YEAR	Net Windfall Completions (all sites)	Net Windfall (site capacity 4 or less)⁵
2004/05	454	297
2005/06	610	278
2006/07	552	243
2007/08	559	263
2008/09	449	191
2009/10	342	176
2010/11	267	158
2011/12	233	89
2012/13	137	57
2013/14	281	95
TOTAL	3884	1847

⁵ These completions exclude residential garden land completions.

- 5.14 Windfall sites accommodating four or less dwellings provide just under half of the total housing completions over the past nine years. The Council therefore considers it realistic and reasonable to expect 100 windfall units will be delivered per year over the next 5 years (in line with the windfall estimate set out in the Core Strategy). Based on past trends and the number of windfall sites that are currently either undetermined applications or at an advanced stage of preparation, this is considered to be a conservative estimate of what is likely to be delivered.
- 5.15 To avoid double counting, the Council has applied the windfall allowance within the housing trajectory from year 4 onwards only (2018/19 and 2019/20). This is because planning permissions last for 3 years and some of the existing housing commitments will already be windfall developments.

Figure 6 - Anticipated windfall

Windfall allowance for yrs. 4 & 5 is 100 dwellings pa	100	
Account for yrs 4 & 5 in five year supply		200

8. Sites brought forward through Neighbourhood Development Plans

- 5.16 Herefordshire Council has been proactive in working with its local communities upon the preparation of Neighbourhood Development Plans. There are currently 86 Neighbourhood Development Plans (NDPs) being prepared in Herefordshire. It is expected that they will take between 12 and 18 months to reach adoption. Once adopted, these NDPs will add local detail to the policies set within the Core Strategy, as required by national planning policy set within the NPPF, as well as playing a major part in the delivery of the level of housing required in the plan period. However, as with windfall provision, sites brought forward through NDPs are unlikely to provide a significant increase to the housing supply until later in the 5-year period. Therefore, it is considered appropriate to include only a moderate allowance for the inclusion within the latter part of the 5-year period (from year 3).
- 5.17 Rural Neighbourhood Development Plans are expected to bring forward proposals for around 180 dwellings per annum over the Plan period however as it will be at least 6-months before many Neighbourhood Development Plans will reach submission stage a 50% discount has been applied to the annualised target. Therefore for the three years from 2017-18 an additional 270 dwellings have been added to the supply figure to account for this source. However, it should be noted that even without this element of supply, a 5 year supply is achieved.

Figure 7 - Anticipated Neighbourhood Development Plan supply

Neighbourhood Plan allowance for yrs.3, 4 & 5 is 90 dwellings pa	90	
Account for yrs 3, 4 & 5 in five year supply		270

5.18 The table below sets out all the aforementioned deliverable sites with a sum total of 6269 deliverable dwellings.

Figure 8 - Total deliverable sites

Commitments	2013/2014	Adoption of Plan	Deduct 10%	Total
Not started	2270			
Under construction	606			
Total Gross	2876			
Total (net)	2508		2257	2257
Sites with commitments from 1st April 14 (net)		819	737	737
Care Home commitments		367	330	330
Strategic Urban extensions		2480		2480
Neighbourhood Plans		270		265
Windfall allowance for yrs. 4 & 5 in five year supply		200		200
Total				6269

Additional calculation factors

9. Past housing completions

5.19 Completions are monitored annually and are deducted from the overall target to establish progress. When assessed against the emerging Core Strategy (housing trajectories) the figures are as set out in Figure 9.

Figure 9. - Completions compared with emerging Core Strategy

Core Strategy year	Net Requirements	Net Completions	Difference
2011/2012	600	341	-259
2012/2013	600	201	-399
2013/2014	600	354	-246
Total		896	-904

5.20 When assessed against the Core Strategy there is a shortfall of 904 dwellings.

10. Shortfall of housing supply from previous years.

5.21 The shortfall is calculated from the start of the Plan period to the time of calculation (2011-2014). The shortfall itself comprises the difference between the number of homes that should have been built in trajectory terms and those that have been built over this period. The

Council's shortfall is 904 when assessed against the emerging Core Strategy target. The PPG clearly states that *Local Authorities should aim to deal with any undersupply within the first 5 years of the plan period where possible*, (paragraph 35⁶). Therefore the shortfalls for the county will be taken into account in the 5 year supply.

11. Buffers

- 5.22 The NPPF states "*to boost significantly the supply of housing, local planning authorities should identify and update annually a supply of specific deliverable sites sufficient to provide five years' worth of housing against their housing requirements with an additional buffer of 5% (moved forward from later in the plan period) to ensure choice and competition in the market for land. Where there has been a record of persistent under delivery of housing, local planning authorities should increase the buffer to 20% (moved forward from later in the plan period) to provide a realistic prospect of achieving the planned supply*" (paragraph 47)
- 5.23 Recent planning appeals in Herefordshire have indicated that a 20% buffer rather than 5% should be applied to the housing requirement. Therefore this assessment applies the 20% buffer in its calculation.
- 5.24 In the Thundersley, Essex appeal decision (APP/M1520/A/12/2177157) the Inspector accepted that, even where a 20% buffer is appropriate, it is both incorrect and unnecessary to apply that buffer to the shortfall. The correct way to calculate this is to add the buffer before the shortfall is added to avoid unnecessarily inflating the required figure.

⁶ Housing and economic land availability assessment (NPPG)

6. Using supply methodology alongside and emerging Core Strategy targets

Figure 10 - Assessment against emerging Core Strategy target

Assessed shortfall using trajectories and using trajectories for supply/requirements

	Source	Homes 20% buffer 10% reduction	Notes
A	Core Strategy 2011 – 2031	16500	
B	Core Strategy requirement 1/4/2011 – 1/4/2014	1800	Using Trajectories: 600 dpa
C	Homes Completed (net) 1/4/2011 – 31/3/2014	896	Net reduction includes demolitions and conversions
D	Requirement for next five years	4000	Using Trajectories 15/16 – 600 pa (1yr) 16/17 – 19/20 – 850 pa (4yrs)
E	Plus 20% buffer	800	Essex approach of 20% before adding shortfall.
F	Plus Residual Shortfall	904	(over next five years as per NPPG)
G	Total Requirement	5704	
H	Annualised requirement	1141	
I	Total Deliverable dwellings	6269	
J	Housing Supply	5.5yrs	

7. Housing land supply for Herefordshire

- 7.1 This report demonstrates that a 5-year housing supply will exist on adoption of the Core Strategy. When assessed against the Core Strategy housing targets and trajectory, the supply is **5.5 years**. The housing position will continue to be kept under review annually taking into account updates to national guidance, case law or changes in local circumstances.
