

HEREFORDSHIRE PUBLIC REALM CONTRACT 2025/26

ANNEX 7 – MANAGING WATER ON THE NETWORK

ANNUAL PLAN FINAL APPROVAL

BBLP: Gareth Toft

HC: Bruce Evans

SERVICE OVERVIEW

SERVICE SUMMARY

Balfour Beatty Living Places (BBLP) will undertake Asset Management and Delivery of Capital and Reactive Drainage services on the Highway Public Realm Contract which are the responsibility of Herefordshire Council (HC). BBLP will also support HC as a Lead Flood Authority.

COMMISSIONED WORKS

The annex shall deliver all activities and works as set out in the original service information unless detailed as out of scope below.

THE SERVICE

HIGH LEVEL SERVICE DELIVERY

SERVICE	RESOURCES (PEOPLE, PLANT, SYSTEMS)	DIRECT/ SUBCONTRACT	DELIVERY	COST 25 26
Major Capital Drainage Schemes	BBLP Design and Capital Delivery Staff, supported by Sub Contractor where necessary	BBLP Direct and Sub Contractor where necessary	Feasibility, Design, Project Management and Delivery of Major Highways Drainage schemes at various locations in Herefordshire which were developed from AMX data.	£50,000
Minor Capital Drainage Schemes	BBLP Asset Management Drainage Team, Capital Delivery Staff, supported by Sub Contractor where necessary	BBLP Direct and Sub Contractor where necessary	Feasibility, Design, Project Management and Delivery of Minor Highways Drainage schemes at various locations in Herefordshire which were developed through intelligence from Drainage Technicians	£450,000
Capital Drainage Investigations	BBLP Asset Management Drainage Team which includes Snr Drainage Engineer, Drainage Engineer & 3 No Technicians as	BBLP Direct and Sub Contractor where necessary	Investigations of systems as part of the development and delivery of capital drainage improvements	£116,371

SERVICE	RESOURCES (PEOPLE, PLANT, SYSTEMS)	DIRECT/ SUBCONTRACT	DELIVERY	COST 25 26
	necessary working with a Subcontractor			
Capital Drainage Flood Data Management and Validation	BBLP Asset Management Drainage Team which includes Snr Drainage Engineer, Drainage Engineer & 3 No Technicians as necessary working with a Subcontractor	BBLP Direct and Sub Contractor where necessary	Management of the Asset Data in the contract's systems to inform current and future programmes and coordinating and advising on drainage activities across the contract.	£36,289
Capital Highway Drainage Enquiries	BBLP Asset Management Drainage Team which includes Snr Drainage Engineer, 3 No Technicians as necessary	BBLP Direct	This is for 3No BBLP Drainage Technicians to respond to enquires raised by members of the public in-year relating to Highways Drainage. It includes public liaison, inspection of issues and determination and prioritisation of solutions which in turn will inform the Asset Management Programme of works.	£151,078
Revenue Pump Station Annual Maintenance	BBLP Asset Management Snr Drainage Engineer. And Subcontract Support (Hereford Rewinds)	BBLP Direct and Sub Contractor	<p>Mechanical and Electrical Inspections and Servicing costs for 4 pumping stations with comments on the structural condition of the asset. This is carried out by a specialist subcontractor twice a year at each station who BBLP manage and monitor.</p> <p>Any Works identified during inspections is not accounted for within this service cost.</p> <p>These are listed and mapped in Appendix C.</p>	£10,764

SERVICE	RESOURCES (PEOPLE, PLANT, SYSTEMS)	DIRECT/ SUBCONTRACT	DELIVERY	COST 25 26
Revenue Grill Inspections and clearance	BBLP Capital Delivery Manager, Capital Delivery Team Supervisor and 2 No Operatives (Fleet is Transit Tipper and small tools)	BBLP Direct	<p>Drainage Grill Inspections are undertaken by the Delivery Team on a Monthly Rota to ensure their integrity and efficiency.</p> <p>In addition to this Grills are reviewed pre and post severe weather events (this cost allows for an additional 3 visits to all grills in year)</p> <p>These are listed and mapped in Appendix C.</p> <p>Where clearing is required, this is completed at time of the inspection.</p>	£71,168
Revenue Routine Reactive Drainage Maintenance	BBLP Jetting Team which includes 2 County Wide Work Gangs, Ditch and Grip Maintenance which includes 1 County Wide Work Gang, BBLP Cyclical Gully Maintenance which includes 1 County wide Work Gang	BBLP Direct and Sub Contractor	<p>Reactive and Routine Drainage includes:</p> <ul style="list-style-type: none"> • Reactive Drainage Gully Cleansing • Routine and Reactive Ditching and Grips Countywide • Gully Cleanse programme 	£1,039,600
Revenue Maintenance of Balancing Ponds	BBLP Asset Management Snr Drainage Engineer. Grounds Teams	BBLP Direct and Sub Contractor	The maintenance of the existing balancing ponds which are adopted through the delivery of housing estates and major highway improvement schemes.	£25,939

SERVICE	RESOURCES (PEOPLE, PLANT, SYSTEMS)	DIRECT/ SUBCONTRACT	DELIVERY	COST 25 26
Revenue Culvert Cleaning	BBLP Asset Management Drainage Team which includes Snr Drainage Engineer and Capital Delivery Manager, Capital Delivery Supervisor and Subcontract Specialists as required (On-site or Another)	BBLP Direct and Sub Contractor	This reactive cost item is for Culvert Cleansing/unblocking identified following culvert inspections and enquiries.	£12,139
Capital Drainage Asset Inspections	BBLP Asset Management Drainage Team which includes Snr Drainage Engineer, 3 No Technicians and additional resource as necessary	BBLP Direct	<p>Inspections are undertaken by the 3 No Drainage Technicians in year to update the knowledge and condition of the “critical assets in the network”.</p> <p>This allows the Asset Management Drainage Team to then prioritise for cleansing and capital maintenance.</p> <p>A number of assets will be inspected during the period (course of the year) in the two Northern, Southern and Central/Southern sectors of the County.</p> <p>This Includes Diving inspections. (Currently the number of enquiries that are being received and the level of service requirements mean that the Technicians are prioritising responses over inspections)</p> <p>These assets and their period of inspection are listed in Appendix C.</p>	£75,401

SERVICE	RESOURCES (PEOPLE, PLANT, SYSTEMS)	DIRECT/ SUBCONTRACT	DELIVERY	COST 25 26
Revenue Reservoir Engineer Annual Check	Specialist Approved Engineer	Sub-consultant	Undertaking the statutory reservoir engineer check.	£11,200
Grant Applications In year EA/External Funding Opportunities Managed through Asset Management Senior Drainage Engineer.	Omitted as part of revenue savings.			
Revenue Watercourse Clearance HC Land	BBLP Asset Management Drainage Team which includes Snr Drainage Engineer and Capital Delivery Manager, Capital Delivery Supervisor and Subcontract Specialists as required (Acer / OTM / Golden Valley)	BBLP Direct and Sub Contractor	This reactive cost item is for Water course Cleansing on HC land identified following enquiries.	£30,091
Minor Capital Improvements to FAS Features	BBLP Asset Management Drainage Team, Capital Delivery Staff, supported by Sub Contractor where necessary	BBLP Direct and Sub Contractor	Improvements to features which are part of HC installed FAS Schemes.	£10,000
Capital	BBLP Asset Management	Direct	This activity is in relation to the Drainage Asset Management	£40,413

SERVICE	RESOURCES (PEOPLE, PLANT, SYSTEMS)	DIRECT/ SUBCONTRACT	DELIVERY	COST 25 26
Land Drainage / Riparian Enquiries/Land owner and other body (e.g., network rail) Asset Inspections/ Water Course Consenting	Drainage Team which includes Snr Drainage Engineer, 3 No Technicians as necessary		Team responding (Snr Eng. and 3 Techs) to land drainage enquires, originating both from HC and other parties and progressing issues towards resolution. These enquiries require interaction with 3 rd Parties who are stakeholders in the resolution of the issue (landowners, network rail etc). This item also covers Providing consents by the Drainage Asset Management Team, for working in ordinary watercourses	
Revenue Development Control: Planning Flooding Advice	BBLP Asset Management Drainage Team which includes Snr Drainage Engineer and Consultants as necessary (WSP or another)	BBLP Direct and Sub Contractor	This allows for the Asset Management Team to undertake responses to technical reviews and flooding risk commentary to planning applications. Incl. Micro drainage Licencing Fees £10k	£132,014 (Anticipated cost, funded from HC development control)

OUT OF SCOPE ACTIVITIES

The activities or works are out of scope:

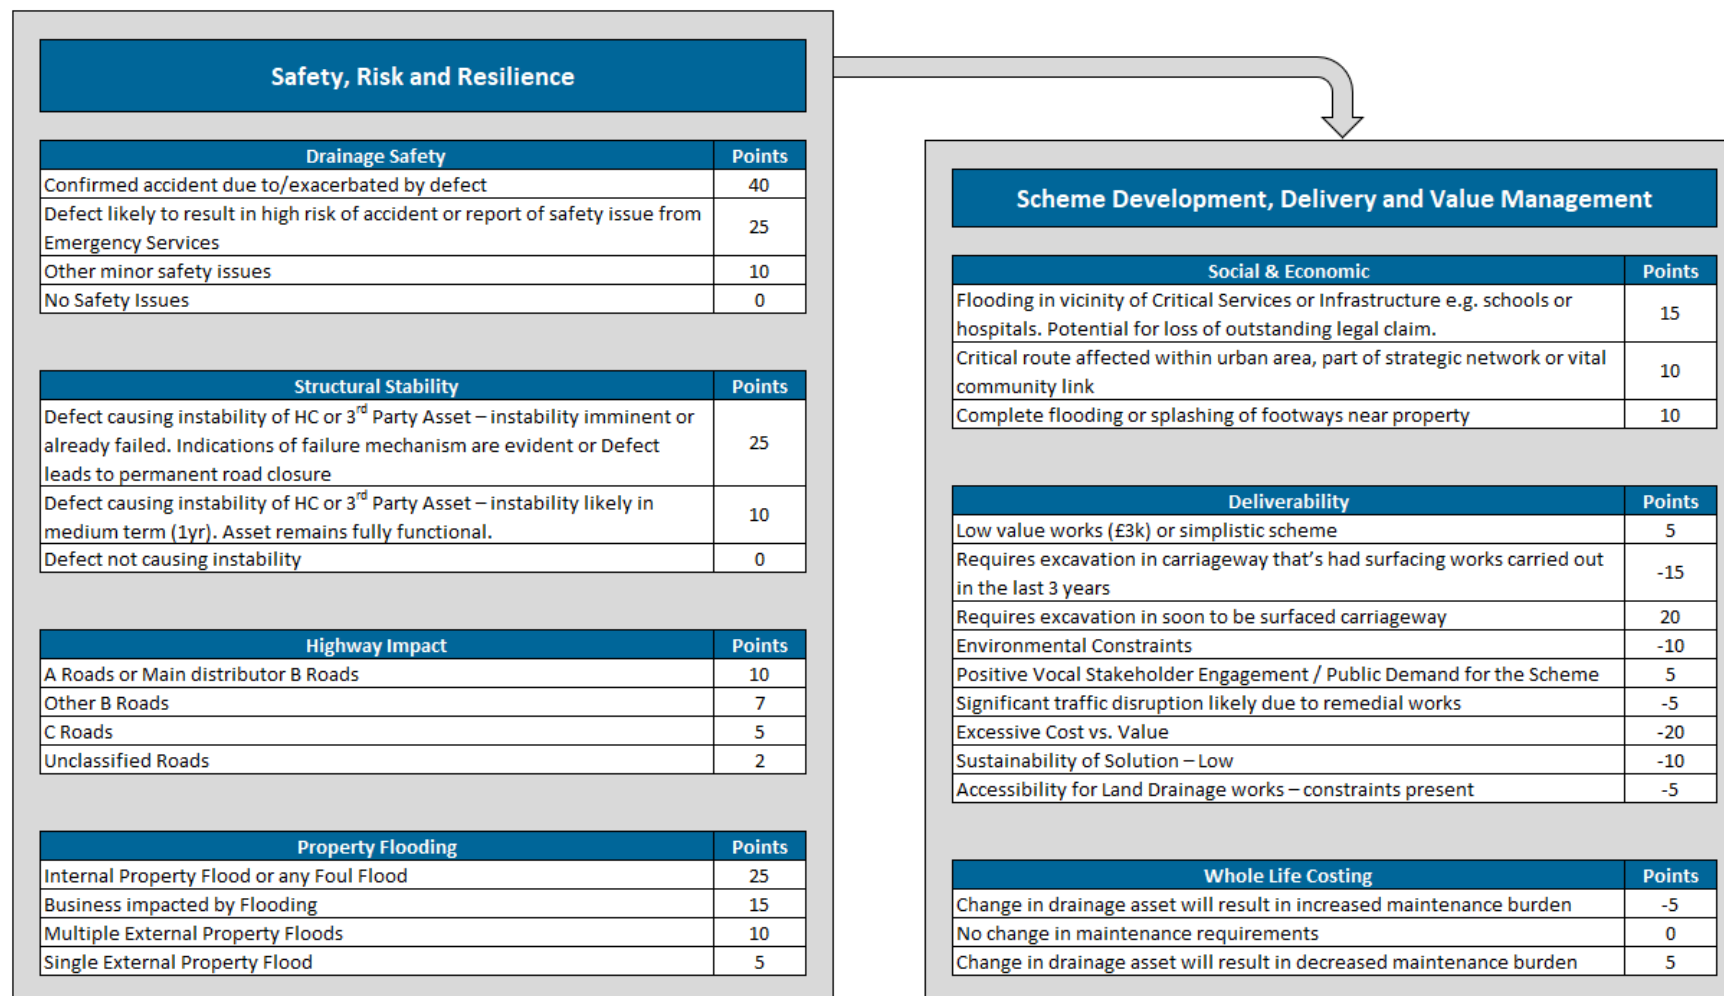

Service/Activity Removed	Reason
Annex 10 Land Drainage – Preparations for Flood and Flood response	The routine issuing of sandbags service was removed from the commissioned Public Realm Services due to funding constraints and is now on an exceptional basis.
Ecological Assessment of Ordinary Watercourse Consents (OWC)	The ecological assessment and consenting of OWC applications is beyond the parameters of the Land Drainage Act and the technical scope of the drainage team.

APPENDICES

APPENDIX A: BBLP POLICY AND PROCESSES TO BE USED IN DELIVERY OF THE ANNEX

PROCESSES

The policy and processes that will be utilised in delivery this service is outlined in the Transport Asset Management Plan (TAMP), Highways Maintenance Plan (HMP), Drainage Lifecycle Plan and Drainage Quality Plan. The prioritisation scoring methodology that will be utilised to select schemes for the Annual Plan Capital Drainage

Note: the impact of the defect should be considered based on all seasons I.e., if a drain is blocked and it is assessed in a dry period, the impact of defect in a wet period should be considered.

The process for managing Ordinary Watercourse Consents is as set out in the Herefordshire Council Documents embedded below:

OWC Process	OWC Checklist
 Ordinary%20Waterc ourse%20Flood%20	 OWFDC%20HRA%2 0Checklist%20%20(2

Details on riparian responsibilities can be found at: [Flood management – Herefordshire Council](#)

APPENDIX B: PROGRAMME OF WORKS

The Programme of Works included within each element are as follows:

Major Capital Drainage

Identified through the Drainage Technicians to ensure that emerging issues and high priority sites from property or highway flooding can be resolved where possible in year.

Minor Capital Works

Identified through the Drainage Technicians to ensure that emerging issues can be resolved where possible before a larger scheme is required, reducing overall costs. This approach will also allow the long list of AMX schemes to be incrementally reduced over time, reducing the overall backlog in this area.
