

HEREFORDSHIRE PUBLIC REALM CONTRACT 2025/26

ANNEX 14 – STRUCTURES

ANNUAL PLAN FINAL APPROVAL

BBLP: Chris Allen

HC: Bruce Evans

SERVICE OVERVIEW

SERVICE SUMMARY

Highway Structures covered by the activities of this annex are defined in the national Structures Asset Valuation and Investment Tool (SAVI). This annex makes provision for the management and maintenance of Herefordshire Councils (HC) bridges and other structures and the provision of technical advice to support network management services such as adoptions of new assets, management of abnormal loads, the regulation of private highway structures, dealing with emergencies relating to highway structures, working in conjunction with other statutory asset owners (such as Utilities, Network Rail and Rail Residuary Board) and managing substandard structures.

Inspections of structures will be undertaken in accordance with National guidance. For every year, this equates to circa 600 inspections across the county. Further details of these inspections have been included in Appendix D. A forward programme will be continually maintained of defects and associated actions, which as at the time of writing this exceeds £28m. Works from this forward programme of identified works are prioritised in accordance with the principles outlined in the Structures Life Cycle Plan (LCP).

Higher benefit-cost preventative maintenance will be used where possible, however budgetary constraints and asset condition is likely to mean that reactive maintenance is likely to take higher priority. All structures works are considered against the inevitable balance between the disruption during the delivery of maintenance works and maintaining network resilience.

COMMISSIONED WORKS

The annex shall deliver all activities and works as set out in Schedule 4 – Service Information Annex 18 - Service Information Structures V1.4 unless deemed out of scope as detailed below.

THE SERVICE

SERVICE DELIVERY

SERVICE	RESOURCES	DIRECT/SUB CONTRACT	DELIVERY	COST 25-26
Capital Major Schemes (Schemes which exceed the parameters for the Minor Works Programme. This is evaluated on a case-by case basis).	Site Engineer + Construction/Project Management overseeing. Snr Engineer Input + Bridge Maintenance Gang + Specialist Sub-contractors	Direct/Sub-contract	Programmed	£450,000.00
Capital Minor Schemes (Generally works of short duration with minimal design input).		Direct/Sub-contract	Programmed	£125,000.00

SERVICE	RESOURCES	DIRECT/SUB CONTRACT	DELIVERY	COST 25-26
Responding to In Year Identified Improvements Required to Highway Structures Minor improvements required to arrest deterioration or renew the components of highway structures. These schemes are specifically identified from inspections. This separate funding stream is established to reduce the impact on pre-identified planned works delivered through Capital Minor Structures.		Direct/Sub-contract	Programmed through the Year	£100,000.00
Principal Inspections for Structures	Snr. Bridge Engineer + Structures Inspector (2no.) + Engineer + Specialist Sub-contractor Snr. Bridge Engineer + Structures Inspector (2no.)	Direct	Programmed	£212,944.11
Structures Diving Inspections & Maintenance		Sub-contract	Programmed	£32,154.16
PROW Structure Inspection Inspection (only) of known large span and special Public Rights of Way bridges exceeding 7.5m.		Direct	Programmed	Included in the Principal Inspections Allowance
Structures General Inspections For the identification of capital improvement works.		Direct	Programmed	R £42,702.75 C £42,702.75
Safety Barrier Inspections Inspection of Vehicle Restraint Systems.		Direct/Sub-contract	Programmed	R £6,478.14 C £6,478.14

SERVICE	RESOURCES	DIRECT/SUB CONTRACT	DELIVERY	COST 25-26
Bridge Strike Support	Omitted as part of savings			
Development Control, Planning & Adoption, Network Management	Snr. Bridge Engineer + Structures Inspector (2no.)	Direct	Reactive	£24,850.29

SERVICE SCOPE

SERVICE	SCOPE
Highway Structures Specific Asset Management	<p>Service Scope</p> <ul style="list-style-type: none">• Utilise a risk-based approach to select which structures can be inspected within funding constraints• Manage the structures in accordance with HMEP asset management guidance• Maintain and continue to enhance the AMX asset data records.• Maintain a forward programme of known defects that have been scoped, risk assessed and prioritised.• Development of an Annual Plan of capital schemes, from the forward programme of known defects.• Provide technical advice on planning applications, note this is externally funded by Developers.• Non-bridge HC owned structures, such as culverts and retaining walls come under the umbrella of 'other highway structures' and will be inspected, and managed through AMX in the same way as bridges.• Provide assistance in arranging for other specialist inspections and maintenance for engineering works outside of 'The Baseline Specification for Highway Works – Public Realm Services'.• Contribute to additional funding bids such as the challenge fund. <p>Notes</p> <ul style="list-style-type: none">• Specialist inspections and Bespoke asset management approach for highways structures other than Highway Bridges are not included.

SERVICE	SCOPE
Inspection and Maintenance of Highway Structures	<p>Service Scope</p> <ul style="list-style-type: none"> • Highway Safety Barriers • Highway Bridges • Highway Retaining Walls • Bridges General Inspections to be undertaken every 2 years. • Bridges Principal Inspections to be carried out generally every 6 years, but potential longer subject to agreement using a risk based approach. • Bridge Management System to be updated within 1 Month following inspections and works being completed. • The Inspection of PROW Structures where the Span exceeds 7.5m are undertaken under the provision of this annex. <p>Public Rights of Way structures which are not on the current inventory but require inspection by the Structures Team will need to be reviewed by the PROW team prior to inclusion in the inspection regime.</p> <p>Notes</p> <ul style="list-style-type: none"> • The management and maintenance of Public Rights of Way Bridges (span less than 7.5m) are not included within this annex. • Herefordshire Council Amenity Bridges are not included within this annex. • Playgrounds, Non-retaining Walls, Buildings, Sculptures are not included within this annex. • Third party assets (other than safety inspections)
Network Management	<p>Service Scope</p> <ul style="list-style-type: none"> • Technical liaison with the Network Management Team in the consenting, planning and supervision of Abnormal Loads on the county's highway network. • Limited support for network infringements • AIP Process as outlined in Appendices • Liaison with Building Control • Providing Technical review and Approval of Highway Structures in accordance with the AIP process, but funded by Developers (the cost associated with this service is estimated to be approximately £15,000 to £20,000 pa,) <p>Notes</p> <ul style="list-style-type: none"> • There is limited support provisioned (based on previous years requirements) for dealing with network infringements • Support and technical advice for issues that are the responsibility of Building Control are not part of the service scope. • Unfunded Planning / Adoption Advice and support to HC Planning and adoption team. Assistance for the submission of AIP's and review of AIPs and granting TAA are not part of the service scope. • The support of Developers or other third parties with design expertise is not part of the annex.

APPENDICES

APPENDIX A: BBLP POLICY & PROCESSES TO BE USED IN THE DELIVERY OF THE ANNEX

Balfour Beatty Group Minimum Engineering Expectations – Copy provided as appendix to service overview

Balfour Beatty Group Minimum Commercial Expectations – Copy provided as appendix to service overview

Balfour Beatty Project Management Best Practice Guide – Copy provided as appendix to service overview

Herefordshire Council Highway Maintenance Plan [Highway asset management and maintenance – Herefordshire Council](#)

Herefordshire Council Highways Development Guidance: [Highway development – Herefordshire Council](#)

APPENDIX B: PROGRAMME OF WORKS

The Programme of Works included within each element are as follows: **Capital Major Schemes**

SCHEME	TYPE	ACTIVITY	EASTING	NORTHING
Bredwardine Bridge	Repoint the structure to resolve motor loss defects	Access Platform or Scaffolding and repoint	333667	244729
Belmont Road	Feasibility and Design	Inspection for Assessment and Condition for repair and Repainting	350123	238710
Huntsham Bridge	Feasibility and Design	Detailed Design for Steel Repairs	356767	218150
Wilton Bridge	Feasibility and Design	Further investigation and design	358996	224212
Adforton Saddling	Construction Phase	Saddling works	340159	271070
Old School Lane Pipe Bridge	Establish options for bridge maintenance	Undertake Inspection for Assessment	351327	241654
Pontrilas Bridge	Feasibility and Design	Investigation and Design	339527	227548
