The value of the contract is estimated at between £200,000,000 and £1,000,000,000. The lower estimate is based on £20,000,000 per annum over the first 10 years of the contract period for the core services. On this basis the Contracting Authority's spend over the maximum term of the contract is broadly but realistically estimated to be £400,000,000. An additional allowance of £100,000,000 has been included for the commissioning of capital works and a 5% annual increase is factored for service costs caused by accurately predicted inflation. A further allowance of £500,000,000 has been included to cover any usage by Contracting Authorities. "
